Evergreen Flowering, Foliage and Berried Shrubs

For Decorating Home Grounds, Gardens, Parks and Parkways

New Low Prices

For first-class plants. Exceptions made of a few items in pots of various sizes which are specially priced.

4-in. pots	\$.25 each, 10 rate \$.20
1-gal. containers40 each, 10 rate .35
3-gal. containers	1.00 each, 10 rate .90
5-gal. containers	1.25 each, 10 rate 1.10

50 or more, 10% lower than 10 rate.

Balled plants, \$1.35 each and up depending on size.

Ten rate applies on any ten assorted plants or trees listed.

Abbreviations following descriptions are as follows:

1g. Plants are growing in one gallon containers and are from one to three feet in height.

5g. Plants are growing in five gallon containers and are usually one or two years older than those in one gallon containers, are well developed, and usually from two to five feet in height.

B. These plants are field grown and exceptionally well rooted and vigorous. They are taken from the field with a ball of earth around the roots which is held securely by burlap and twine. These make immediate effects.

We urge you to visit our salesyard and be convinced that our prices are low and far more reasonable than at anytime since 1914. If unable to visit our nursery write us your requirements and prices will be quoted promptly by letter. Consult back cover page for full information concerning our location and method of deliveries.

Evergreen shrubs bearing flowers or berries and those having beautiful foliage have their necessary place in the decoration of the home grounds and in finishing the attractiveness of the home.

ABELIA grandiflora (A. rupestris). 6 ft. Flowers bell-shaped, small, fragrant, white shading to pink; a gracefully spreading shrub. B, 5g, 1g.

ABUTILON. "Flowering Maple." 6 ft. Flowers orange, bell-shaped. 1g.

ARBUTUS unedo. "Strawberry Tree." 10 ft. Flowers white, followed by attractive red fruit. B, 5g, 1g.

AUCUBA japonica. "Gold Dust Plant." 6 ft. Large glossy green foliage variegated yellow. 7-in. pots, 75c.

BAUHINIA acuminata. "Orchid Tree." 6 ft. Flowers large, white, orchid-like. 1g.

BELLAPERONE. 4 ft. An odd little shrub with drooping racemes of red and white flowers. 1g.

BERBERIS darwinii. 4 ft. Flowers golden in great numbers; foliage small, glossy, holly-like. 5g, 1g.

BERBERIS wilsonae. 3 ft. Low shrub. Flowers golden yellow in dense clusters. 1g.

BUDDLEIA asiatica. Fragrant winter blooming variety. Flowers white in long spikes. 1g.

BUDDLEIA davidi (variabilis). 10 ft. Flowers lilac with orange centers, fragrant. 5g, 1g.

BUXUS japonica. "Boxwood." Leaves small, rounded, excellent tub, lawn, and hedge plant. Trimmed globes and pyramids. 100 in flats for hedge planting, \$2.00. 1g, B.

BUXUS sempervirens. "English Boxwood." 3 ft. Foliage dark green. Attractive as border shrub or porch decoration. 4-in. pots.

CALLISTEMON lanceolatus (Metrosideros semperflorens). "Bottle Brush." 8 ft. Flowers bright red, showy. 5g, 1g.

CALLISTEMON rigidus. "Bottle Brush." 12 ft. Flowers bright red in spikes 3-4 inches long. 5g, 1g.

CALLISTEMON salignus. 12 ft. Hardy ornamental shrub with light pink flowers. Good for dry climate. 1g.

CAMELLIA japonica. 10 ft. Rare shrub with waxy glossy foliage and showy wax-like flowers opening in the winter time. 4-in. pots, \$1.00; 6-in. pots, \$1.75. Larger sizes at special low prices. Colors pink, red and white.

BOXWOOD

Used Effectively for Specimen and Hedge Planting.

CANTUA buxifolia. 5 ft. Flowers trumpet shaped, pendant, orange-yellow shaded with crimson. 5g, 1g.

CARISSA grandiflora. "Natal Plum." 5 ft. Ornamental flowering and fruiting. White flowers, fruit edible. 1g.

CARPENTERIA californica. 6 ft. Flowers pure white, fragrant; leaves large; needs well-drained soil. 5g.

CARYOPTERIS incana. "Blue Spirea." 3 ft. Flowers lavender blue in great profusion. 5g, 1g.

CASSIA artemisoides. 6 ft. Flowers sulphur-yellow, showy; leaves silver-gray, small; drought resistant. 1g.

CASSIA laevigata. Flowers yellow, followed by 2-3-in. long cylindrical pod. 5g, 1g.

CASSIA nainbensis. 8 ft. A type with large dark green leaves. Flowers golden yellow in long spikes. 5g, 1g.

CASSIA tomentosa. 12 ft. Flowers deep yellow. Winter bloomer; grows with little water. 5g, 1g.

CEANOTHUS cyaneus. "Lakeside Wild Lilac." 10 ft. Excels all others in the beauty of its flowers. Color intense blue. 1g.

CEANOTHUS spinosa. "Buckthorn." 10 ft. Pale blue feathery flowers. Fast growing. 1g.

CEANOTHUS thyrsiflorus. "Wild Lilac." 8 ft. A native California plant. Blooms in early Spring. 1g.

CERCOCARPUS betulaeifolia. "Mountain Mahogany." 20 ft. Thrives under unfavorable conditions. 5g.

CESTRUM aurantiacum. 8 ft. Bears beautiful loose nodding clusters of orange-yellow flowers. 1g.

CESTRUM elegans smithii. 6 ft. Blush rose flowers. Profusion of bloom in Summer and Autumn. 1g.

CESTRUM nocturnum. "Night Blooming Jessamine." 6 ft. A fast growing tender shrub with creamy-yellow flowers, very fragrant at night. 1g.

CHOISYA ternata. "Mexican Orange." 6 ft. Flowers white, orange scented. 1g.

CHORIZEMA illicifolia. 3 ft. Flowers pea-like, orange-red; leaves holly-like; half climbing habit. 1g.

CINERARIA plantinifolium. (See Senecio.)

CISTUS ladaniferous. "Brown-eyed Rock Rose....." 3 ft. Low spreading plant covered every morning during Spring and Summer with pure white flowers with a blotch of crimson at the base. 3g, 1g.

CISTUS maculatus. 4 ft. Spreading dense foliage plant; flowers pure white with crimson spot at the base. 1g.

CNEORUM tricocon. 3 ft. Forms a clump of dark green foliage; red berries in late Fall. Not common. B, 3g, 1g.

COCCOLOBA platyclada. 8 ft. Odd reed-like foliage. 5g, lg.

COPROSMA baueri. "Looking Glass Plant." 10 ft. Flowers insignificant. Admired for its glossy foliage. 5g, lg.

CORONILLA glauca. 4 ft. Flowers yellow, fragrant, in bloom most of the time; foliage bluish. 5g, lg.

COTONEASTER franchetti. 6 ft. Leaves dark grayish-green. Spreading, fast growing shrub; berries orange-red. B, 5g, lg.

COTONEASTER frigida. 15 ft. Flowers small, white in flat clusters. Valuable because of its brick red berries. 5g, lg.

COTONEASTER horroviana. 6 ft. Spreading willow-like branches. Foliage dark green. Graceful. White flowers, red berries. lg.

COTONEASTER horizontalis. 2 ft. Leaves small, coloring in the Fall from bronze to red; berries bright red. B, 5g, lg.

COTONEASTER microphylla. 3 ft. Leaves small, dark green; berries red; growth low; good ground coverer. B, 5g, lg.

COTONEASTER pannosa. 8 ft. Flowers white; foliage greenish; fast growing, hardy; red berries. B, 5g, lg.

COTONEASTER parryi. 4 ft. New low spreadnig form with dark red berries. lg.

COTONEASTER schmidtii. 5 ft. Flowers white, leaves thin, bright green; spreading. Berries bright red. 5g.

DAPHNE odora marginata. 3 ft. Handsome shrub with bright white margined leaves. Flowers extremely fragrant. In 6 and 7-in. pots at \$1.00 and \$1.50 each.

DIOSMA ericoides. 4 ft. Flowers white, small, star-shaped, abundant; foliage heath-like, fragrant, compact. B, 5g, lg.

DURANTA plumieri. 10 ft. Flowers lavender-blue, long terminal chains; leaves bright green; fruit golden yellow; attractive. 5g, lg.

ERICA melanthera. 7 ft. Flowers rosy pink. Rapid growth. One of the best and most popular bloomers. 5g, lg.

ESCALLONIA rosea. 15 ft. Flowers rose colored in spikes; fast growing. B, 5g, lg.

ESCALLONIA rubra. 6 ft. Flowers dark red, short terminal clusters; leaves glossy dark green. 5g, lg.

EUGENIA bookeriana. 15 ft. Flowers white in large clusters followed by red fruit. Trim to make compact. B, 5g, lg.

EUGENIA myrtifolia. "Australian Brush Cherry." 15 ft. Foliage colorful with bronze shades. Trimmed specimens. B, 5g, 3g, lg.

EUONYMUS albo-marginata. 8 ft. Foliage plant; leaves shiny green with white margins. B, 5g, lg.

EUONYMUS aurea marginata. "Golden." 6 ft. Attractive thick foliage golden edged. B, 5g, lg.

EUONYMUS aurea-variegata. 8 ft. Glossy medium sized leaves, distinctive golden blotched center. B, 5g, lg.

EUONYMUS japonica. 6 ft. All green leaves. Easy to grow, stands much abuse, heat, and cold. B, lg.

EUONYMUS pulchelus. "Small Leaved "Euonymus." 4 ft. Dwarf form, dark green folage, excellent for low hedge. B, lg.

EUONYMUS radicans argenteo-marginatus. Low growth, trailing. Good ground coverer. 3-in. pots, 15c, \$12.00 per 100.

EUONYMUS radicans variegata. "Baby Creeper." Similar to preceding except leaves are smaller. lg.

FATSIA japonica. 5 ft. Foliage large, tropical, glossy green; requires shady location. 3g, lg.

FEIJOA sellowiana (Seedling). 15 ft. Flowers are showy white, red stamens; foliage gray-green; drought resistant. B, 5g, lg.

FUCHSIA "Baby". 6 ft. Flower petals blue, outer portion scarlet; leaves small. lg, 6-in. pots, standards.

FUCHSIA microphylla (F. minima). 18 ins. Flowers pink to red, one-half inch long on stamens. 4-in. pots.

FUCHSIA "Phenomenal." 4 ft. Flowers dark purple, large, double. 6-in. pots.

FUCHSIA speciosa. 8 ft. Flowers 2-in. long, purple petals $\frac{3}{4}$ -in. long, scarlet outer portion reflexed. lg, 4-in. pots.

FUCHSIA "Storm King." 6 ft. Flowers large, double, white. Very showy. 6-in. pots.

GENISTA fragrans (Cytissus racemosa). "Sweet Broom." 6 ft. Flowers pea-shaped, covering the plant in Spring and Summer. Leaves silky light green. 5g, lg.

GENISTA hispanica (Spartium junceum). 8 ft. Flowers yellow, fragrant, borne on long branches of olive green. 5g, lg.

GREVILLEA thelemanniana. 5 ft. Flowers scarlet, numerous; leaves feathery pale green. 5g, lg.

GREVILLEA banksi. 8 ft. Leaves like the Grevillea tree. A new shrub bearing crimson comb-like flowers. 5g, lg.

GREWIA caffra. 5 ft. A rare plant from Natal. An exceedingly attractive bushy plant bearing lavender star-shaped flowers. 5g, lg.

HAKEA elliptica. 15 ft. Flowers white in globe-like clusters; new growth bronze colored; drought resistant. lg.

HAKEA laurina. 25 ft. Flowers crimson, globular; leaves 5-6 inches long; drought resistant. 5g, lg.

HAKEA saligna. 8 ft. Flower clusters white, small but numerous; leaves pale green; drought resistant. 5g.

HAKEA suaveolens. 10 ft. Flowers white, fragrant; leaves grooved, dense, rounded; fine for barriers; new growth striking in color. 5g, lg.

HETEROMELES arbutifolia. "California Holly." 10 ft. Flowers white, berries red, are its peculiar charm at Christmas time. Rapid growth; heat, frost, and drought resistant. lg.

HIBISCUS sinensis. "Chinese Hibiscus." 10 ft. Glossy leaves, large bright colored flowers. Colors double red, single red, single pink, apricot, and peach-blow. 3g, lg.

HYPERICUM henryii. 4 ft. Grows upright. Large yellow flowers which continue throughout the Summer and Fall. Desirable for dividing hedge. B, T, 5g, lg.

HYPERICUM moserianum. "Gold Flower." 2 ft. Flowers golden color; low growth; good ground coverer for cool or shaded locations. lg.

HYDRANGEA hortensis. 10 ft. Popular shrub. Has masses of large heads of light pink flowers shading to blue. lg.

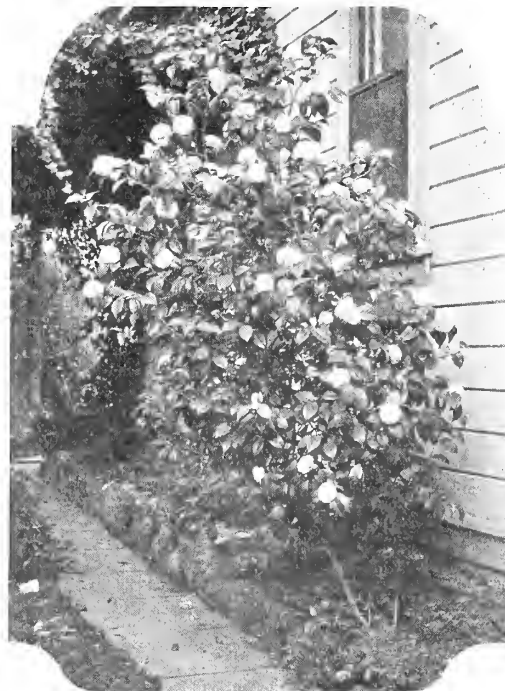

IMPATIENS sultanii. 2 ft. Bright green foliage with large purple flowers. lg, 4-in. pots.

IOCHROMA fuchsoides. 6 ft. Flowers scarlet, 2-in. long, cylindrical in pendant clusters. 5g, lg.

IOCHROMA lanceolatum. 6 ft. Flowers rich purple-blue, long. lg.

JACOBINIA carnea. 4 ft. Terminal spike-like clusters of curved-lipped flowers, rose to flesh colored. lg.

LAGUNARIA patersonii. 20 ft. Flowers pale rose; leaves oval. Makes a symmetrical pyramidal specimen. 5g, lg.

CAMELLIA

A Rare Shrub With Showy Wax-like Winter Flowers.

NERIUM (Oleander)

Desirable for quick effect and heavy bloom.
Used as a small tree or hushy shrub.

LANTANA. 3 to 6 ft. Flowers in pink, red, orange, or yellow, also lavender-trailing. 1g, 4-in. pots.

LAUROCERASUS officinalis. "English Laurel." 10 ft. Flowers white, leaves glossy. Compact. B, 5g, 1g.

LAVENDULA vera. "Lavender." Flowers blue in fragrant spikes; leaves small, gray-green. 1g.

LEONOTIS leonurus. "Lion's Tail." 6 ft. Flowers orange-red, long tube, lipped, whorls. 5g, 1g.

LEPTOSPERMUM laevigatum. "Australian Tea Tree." 20 ft. Flowers white; gracefully arching growth; drought resistant. 5g, 1g.

LEPTOSPERMUM lanigerum. 6 ft. Flowers white, small, abundant; leaves small, silvery blue-green. 5g.

LIGUSTRUM acuminatum. 5 ft. Flowers white in small clusters; foliage dark green, leathery. 5g, 1g.

LIGUSTRUM henryi. 12 ft. Flowers white in large clusters; foliage small, dark green, glossy; compact. B, 5g, 1g.

LIGUSTRUM japonica. "Japanese Privet." Tall growing, suitable for tall dense hedges. Flats of 100, \$1.75; 1g.

LIGUSTRUM nepalense. "Evergreen Privet." 6 ft. Leaves small, thin, green; cold and heat resistant; hedge plant. Flats, 1g.

LIGUSTRUM ovalifolium. "California Privet." 12 ft. Leaves dark green, glossy; stiff, upright growth. Hedge plant. Flats, 1g.

LIGUSTRUM ovalifolium var. "Golden Privet." 15 ft. Flowers white, insignificant; foliage golden. Flats, B, 5g, 1g.

LINUM flavum. 4 ft. Flowers yellow, showy. In bloom nearly all year. Leaves small, fine garden flower. 1g.

LIPPIA citriodora. "Lemon Verbena." 5 ft. Flowers minute, white, in dense spikes; foliage narrow, fragrant. 1g.

LONICERA nitida. 6 ft. Leaves dark green, glossy. Makes a good low hedge plant. 1g.

MAHONIA aquifolium. "Oregon Grape." 6 ft. Foliage glossy green turning to red and yellow in Fall. B, 5g, 1g.

MAHONIA japonica. "Japanese Mahonia." Foliage soft green. Flowers large followed by black berries. 1g.

MALVA chinensis (Meln.) 20 ft. Tall, loose growing shrub. Pink flowers most of the year. 1g.

MELALEUCA armillaris. "Bottle Brush." 15 ft. Flowers white, showy. Growth graceful. 5g, 1g.

MELALEUCA decussata. 15 ft. Flowers lilac; leaves narrow, blue-green; growth upright, spreading. 5g, 1g.

MELALEUCA hypericifolia. Tall shrub. Flowers rich red. One of the best of the variety. 5g, 1g.

MELALEUCA lateritia. 12 ft. Flowers bright orange; leaves like those of the Diosma, dark green. Tubs.

MELALEUCA linarifolia (M. diosmifolia). 12 ft. Flowers white, long; leaves blue-green. Graceful shrub. 5g.

MELALEUCA nesophila. 30 ft. Flowers lavender, leaves shaped somewhat like Australian Tea Tree leaves. 5g, 1g.

MYRTUS communis. 8 ft. Flowers white, leaves shiny, dark green. Good hedge and specimen plant. B, 5g, 1g.

MYRTUS communis var. 5 ft. Flowers the same as above; leaves marked with white, graceful. B, 5g, 1g.

MYRTUS microphylla. "Small Leaved Myrtle." Foliage exceptionally small and closely set. 1g.

MYRTUS microphylla compacta. "Dwarf Myrtle." 3 ft. Extremely dense and compact. Good low growing hedge plant. 1g.

NANDINA domestica. "Sacred Bamboo." 6 ft. Leaves turn red and copper shades in Autumn. Berries red. B, 5g, 1g.

NERIUM. "Oleander." 10 ft. Flowers double pink, showy, blooms continuously; heat and drought resistant. B, 5g, 1g.

NERIUM. "Mrs. F. Roeding." 10 ft. Salmon colored flowers. Strong grower. Bush or tree form. B, 1g.

NERIUM. "White." Single flowers, blooms profusely. 1g.

NERIUM. "Single Red." Dark single red, attractive dainty flowers. 1g.

PITTOSPORUM crassifolium. 20 ft. Flowers red. Foliage leathery dark green. Good for Seaside. B, 5g, 1g.

PITTOSPORUM eugenoides. 15 ft. Leaves glossy light green. Growth upright, bark light gray, striking. B, 5g, 1g.

PITTOSPORUM phylliraeoides. 20 ft. Flowers yellow, leaves narrow, growth willow-like. Yellow fruit. B, 5g, 1g.

PITTOSPORUM rhombifolium. 20 ft. Flowers fragrant; leaves coarsely toothed, light green; berries orange-yellow. 5g, 1g.

PITTOSPORUM tenuifolium (P. nigricans). 20 ft. Leaves glossy dark green; compact; twigs black. B, 5g, 1g.

PITTOSPORUM tobira. "Japanese Pittosporum." 8 ft. Flowers fragrant; growth dense, round; stands heat. B, 5g, 1g.

PITTOSPORUM tobira var. 8 ft. Similar to green tobira except leaves are variegated with white. B, 5g, 1g.

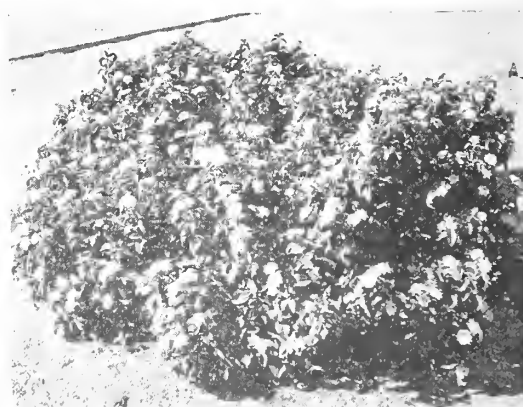

PITTOSPORUM undulatum. 20 ft. Flowers white, fragrant at night; leaves deep green, glossy. B, 5g, 1g.

PITTOSPORUM viridiflorum. 20 ft. Flowers greenish yellow, compound clusters, fragrant; berries green. B, 1g.

PLEROMA splendens. 6 ft. Tender and only for warm locations. Flowers reddish-purple to violet through the Summer. 6-in. pots, 50c.

PLUMBAGO capensis. 12 ft. Flowers light blue, abundant throughout the Summer; a semi-climber. 5g, 1g.

PODOCARPUS elongata. Foliage handsome dark green, glossy, narrow. Growth graceful. 1g.

DWARF YELLOW LANTANA

POINSETTIA PULCHERRIMA

PODOCARPUS macrophylla. Foliage thicker and more upright than the above; branches pendant. 1g.

POINCIANA gilliesi. "Bird of Paradise." Small tree or tall shrub; feathery foliage; flowers light yellow. 5g, 1g.

POINSETTIA pulcherrima. 10-15 ft. Flower bracts scarlet-red; well-known Christmas flower. 1g.

POLYGALA dalmaisiana. A hardy shrub with medium sized green foliage. Flowers lavender. 1g.

PRUNUS caroliniana. "Carolina Cherry." 15 ft. A splendid tree-like shrub with light green foliage. 5g, 1g.

PRUNUS illicifolia. "Wild Cherry." 10 ft. Native. Large shrub bearing glossy holly-like foliage. 5g, 1g.

PRUNUS lyoni (P. integrifolia). "Catalina Cherry." 20 ft. Growth tree-like, compact. Glossy leaves. 1g.

PUNICA nana. "Dwarf Evergreen Pomegranate." 5 ft. Flowers orange-scarlet, followed by crimson fruit. 1g.

PYRACANTHA augustifolia. 10 ft. Leaves long, berries long, orange-yellow. 5g, 1g.

PYRACANTHA coccinea. "Fiery Thorn." 6 ft. Growth slow, berries large, one-half inch across, numerous, bright red. 5g, 1g.

PYRACANTHA crenulata. 10 ft. Leaves long, toothed, dark green, glossy; berries bright red. 5g, 1g.

PYRACANTHA formosianum. 6 ft. Leaves gray-green, small; berries scarlet. 5g, 1g.

PYRACANTHA lalandi. 8 ft. Leaves wider than crenulata, thin; berries bright orange-red. 5g, 1g.

PYRANCATHA yunnanensis. 8 ft. Leaves vary in shape; berries abundant, small, bright coral-red. 5g, 1g.

RAPHIOLEPSIS ovata. 8 ft. Flowers white, abundant; leaves dark green, leathery; purple berries. B, 5g, 1g.

RHAMNUS californica. "Coffee Berry." 15 ft. Small spreading tree; fruit changes from red to purplish-black. B, 5g, 1g.

ROSEMARINUS officinalis. "Rosemary." 2 ft. Flowers light blue; aromatic herb. 1g.

SALVIA coccinea. "Scarlet Pea." 6 ft. Bright scarlet; grows rapidly. Very attractive. 5g, 1g.

SALVIA farinacea. 3 ft. Flowers blue; leaves light gray. For the garden border. 1g.

SALVIA greggi. 3 ft. Bright cerise base of flowers, flowering stem purple; leaves small, blue-gray. 1g.

SALVIA leucantha. 3 ft. Flowers effect lavender in round spreading mounds. One of the most popular. 5g, 1g.

SALVIA splendens. "Scarlet Sage." 5 ft. Flowers bright scarlet; leaves green. 5g, 1g.

SENECIO platinifolium. "Brush Cineraria." 8 ft. Flowers yellow in many headed spikes; leaves broad, dark green. 1g.

SALANDRA guttata. "Cup of Gold." An erect plant with large leathery shining leaves. Flowers large, fragrant, yellow. 7-in. pots, \$1.00.

SOLANUM flavum. 6 ft. Flowers violet to dark violet, abundant; leaves variable, lance-shaped and lobed; fruit large, egg-shaped, turning yellow to red; attractive in flower and fruit. 1g.

SOPLYA heterophylla. "Australian Bluebell." 20 ft. Flowers bright blue, bell-shaped; may be used as a vine. 3g, 1g.

STRELITZIA nicolai. "Bird-of-Paradise Flower." Banana-like foliage with odd showy blue flowers. Tubs, \$5.00 up.

STREPTOSOLEN jamesoni. 8 ft. Flowers orange-red in terminal clusters. 1g.

SWAINSONIA rubra. Small light green leaves on upright stems. Red flowers. 1g.

TRITOMA pfitzeri. "Red Hot Poker." Flowers red and yellow borne in spikes; leaves grass-like. 5g, 1g.

VERONICA andersoni. 4 ft. Flowers bluish-violet, axillary spikes 3 inches long, showy; growth round headed. 1g.

VERONICA glaucophylla. 1 ft. Flowers white, slender, spikes; leaves blue-gray. Drought resistant. 1g.

VERONICA imperialis. 4 ft. Flowers dark wine color; leaves dark green, red mid-rib; compact round headed. 5g, 1g.

VERONICA pimeloides. 1 ft. Hardy dwarf plant. Small bluish colored foliage. Flowers pale lilac. 1g.

VERONICA traversi. 3 ft. Flowers white, spikes one to three inches long. Leaves shiny green; bushy growth. 1g.

VIBURNUM japonicum. 6 ft. Upright growing shrub. Flowers pinkish-white, followed with red berries. 5g, 1g.

VIBURNUM odoratissimum. 12 ft. Large dark green foliage. Flowers white, fragrant. B, 5g, 1g.

VIBURNUM suspensum. 6 ft. Flowers white; leaves dark green above, crinkly. B, 1g.

VIBURNUM tinus. "Laurastinus." 12 ft. Flowers white to pink, fragrant; heat resistant. B, 5g, 1g.

VIBURNUM virgatum. 8 ft. Flowers white, free flowering; leaves short, hair on the margins. B, 5g.

This is only a partial list. We have many varieties in our display yards at similar low prices.

PITTOSPORUM UNDULATUM

Attractive Glossy-leaved Specimen Plant.

Broad-leaved Evergreen Street and Shade Trees

CERATONIA "CAROB"
"St. John's Bread," Excellent Shade Tree.

New Low Prices

1g. Means 1-gallon containers, price \$.40 each; 10 rate, \$.35
3g. Means 3-gallon containers, price \$1.00 each; 10 rate, \$.90
5g. Means 5-gallon containers, price \$1.25 each; 10 rate, \$1.10

In our nurseries we grow great quantities of shade trees and are prepared to supply for extensive planting.

Not alone are the Evergreen trees used for Street and Avenue planting, but are properly used for backgrounds and for screens in the Garden or on the rear of the lot, in fact, almost anywhere if space permits, it is not amiss to "plant another tree."

Heights given are approximate at maturity.

Due to the sensitiveness of the roots of this class of trees they are almost all grown in containers.

ACACIA armata. "Kangaroo Thorn." 10 ft. Flowers light yellow; growth spreading gracefully. 1g.

ACACIA baileyana. 30 ft. Flowers golden yellow; abundant; leaves small, feathery, silver-blue. 5g, 1g.

ACACIA cultiformis. 12 ft. Flowers yellow, 30 or 40 in a head, abundant; leaves fern-like, silver-gray. 5g, 1g.

ACACIA dealbata. "Silver Wattle." 35 ft. Flowers golden yellow, abundant; leaves fern-like, silvery-gray. 5g, 1g.

ACACIA floribunda. 30 ft. Flowers yellow, in bloom most of the year, leaves narrow, light green. 5g, 1g.

ACACIA latifolia. 40 ft. Flowers golden yellow, larger than A. floribunda; leaves bright green, gold screen plant. 5g, 1g.

ACACIA melanoxylon. "Black Acacia." 50 ft. Flowers lemon yellow; leaves dark green, compact. 5g, 1g.

ACACIA juncifolia (A. pinatifolia). More like a tall shrub than a tree. 20 to 30 ft. Flowers in bunches, yellow. 5g, 1g.

ACACIA verticillata. "Whorl-leaved Acacia." 20 ft. Flowers light yellow; leaves green, rapid growth. 5g, 1g.

CAMPHORA officinalis. "Camphor Tree." 50 ft. Evergreen street tree, small leaves, glossy. 5g, 1g.

CASUARINA stricta. 30 ft. Branchlets short, grayish-green, erect; used as a street tree. 5g, 1g.

CERATONIA silqua. "Carob." 40 ft. Leaves glossy, dark green. Street or shade tree. 5g, 1g.

EUCALYPTUS citriodora. "Lemon Scented Gum." 100 ft. Fine ornamental Eucalyptus. Leaves scented. 5g, 1g.

EUCALYPTUS corynocalyx. "Sugar Gum." 120 ft. Flowers whitish, drought resistant, wood lasts well underground. 5g, 1g.

EUCALYPTUS ficifolia. "Scarlet Flowering." 30 ft. Flowers usually red. Used for street trees, ornamentals. 5g, 1g.

EUCALYPTUS globulus. "Blue Gum." 150 ft. Flowers small white; leaves bluish-green; growth rapid. 5g, 1g.

EUCALYPTUS leucoxylon rosea. "White Ironbark." 75 ft. Flowers pink, showy; leaves grayish. 5g, 1g.

EUCALYPTUS rostrata. "Red Gum." 120 ft. Rapid growth. Desirable for desert locations. More handsome than the Blue Gum. 1g.

EUCALYPTUS rudis. "Desert Gum." 80 ft. Ideal for irrigated sections of the desert. Hardy. 1g.

EUCALYPTUS sideroxylon rosea. "Red Ironbark." Flowers rose-colored; leaves green; rough colored bark. 5g.

EUCALYPTUS tereticornis. "Gray Gum." 150 ft. Stands extremes of heat and cold. Good for desert or coast. 5g, 1g.

EUCALYPTUS viminalis. 150 ft. One of the hardiest. Can be grown where other varieties would not survive. 5g, 1g.

FICUS macrophylla. "Moreton Bay Fig." 40 ft. Rubber tree with broad glossy leaves growing to large trees. 5g, Tubs.

GREVILLEA robusta. "Silk Oak." 100 ft. Flowers golden-red, foliage fern leaved; a stately tree. 5g, 1g.

JACARANDA ovalifolia (J. mimosaeifolia). Flowers tubular, violet-blue, in large groups; leaves large. 5g, 1g.

MAGNOLIA grandiflora. "Bull Bay." 80 ft. Flowers white, fragrant; leaves thick, glossy. 5g, 3g, 1g.

PARKINSONIA aculeata. "Jerusalem Thorn." 15 ft. Flowers showy, yellow, fragrant. Leaves reed-like. 5g, 1g.

QUERCUS agrifolia. "California Live Oak." 50 ft. Best of native oaks; leaves small, edges spiny toothed. 5g, 1g.

SCHINUS molle. "Pepper Tree." 50 ft. Flowers small, white followed by pendants of red berries. Foliage pendant. 5g, 3g, 1g.

SCHINUS terebinthifolius. "Brazilian Pepper." A fine comparatively new pepper tree that has met with favor in many localities. Leaves are larger and longer than the California pepper. Berries scarlet. 5g, 1g.

DAME EDITH HELEN

Deciduous Shade Trees and Flowering Shrubs

When full shade is wanted in summer, but is not desired in the winter, the deciduous tree, which sheds its leaves in the winter time, is the best shade tree to serve this purpose.

For street planting these trees are especially desirable, letting the sunshine through to the walks, lawns, and pavements. Serves the same purpose along the boulevards and particularly if planted on the south and west sides.

Then again the color effect of the foliage in the Fall and the bursting of the bright green leaves in the Spring lends much beauty to the landscape during both seasons.

Deciduous trees and shrubs are supplied with bare roots if purchased early. Plant from January 1st to April 1st.

Prices follow descriptions and sizes.

Deciduous Street and Shade Trees

ALBIZZIA julibrissim. 40 ft. Flowers pink, terminal, showy; foliage finely cut, fern-like; shade tree. 4 ft., \$1.25.

ACER dasycarpum. "Silver Maple." 50 ft. Makes a rapid growth and is a beautiful tree for all purposes. 7 to 8 ft., \$1.10; 6 to 7 ft., \$1.00.

FAIRCHILD AERIAL SURVEY

Air view of our display yard, lathhouses, and portion of nursery located on Brand and Mission Boulevards, one mile west of San Fernando. Additional growing grounds of 30 acres not shown are located nearby.

How to Reach Our Nurseries

This map directs you to our Nurseries, which are located on Brand Boulevard, one mile west of San Fernando. Broad boulevards reach our place from all directions. We are about 15 miles from Hollywood, 10 miles from Burbank and North Hollywood. It is a pleasant drive out to our place.

The gardens and sales yard of the San Fernando Nursery Co. adjoin the beautiful Mission Park on the east. This park is a lovely place to visit—lunch tables and warming ovens are provided for visitors. Many rare trees and plants are growing in the park. The old San Fernando Mission is also located across the street.

In order to grow good nursery stock the Nurseryman must find certain conditions which are favorable. These conditions include good soils, climatic situations, abundance of water and pest-free districts; these we have where we are located.

Why Our Business Grows

Your business is solicited with the broad guarantee that your dealings with us will be entirely satisfactory to you. We propose to carry out this rule in our business and if at any time you are disappointed we shall consider it a favor if you will tell us.

You are cordially invited to visit our Nurseries. In our gardens you will find a display of plants, trees, shrubs, and roses in large variety. Many of these are large specimen plants, so that you may see how a smaller plant is going to look when full grown.

Our Nurseries have been carefully inspected by inspectors of the Los Angeles County Horticultural Commission and we guarantee all trees to pass inspection in any district.

Every care is exercised to have all trees and plants true to name, nevertheless, it is understood and agreed hereby that we may replace or refund the purchase price of such trees should any plants prove untrue, and be liable to no greater extent.

Deliveries

Trucks will make deliveries to all parts of the San Fernando Valley, Pasadena, Glendale, Burbank, Los Angeles, Hollywood, Beverly Hills, Santa Monica, and adjoining districts free. Greater distances at small cost.

Mail Orders

Mail orders will receive our prompt and careful attention. Many ornamentals are grown by us in small containers as quoted in this catalog, especially to lighten transportation charges to points at a distance, but we pack any plant wanted so as to secure the lowest rates. No charge for packing.
